Leased Lines
state of the art data centre facility
in the heart of Dublin.

Being connected to the internet is vital for any modern day business.

Dedicated Internet Access

Dedicated Internet Access (DIA) services run on a national digital optical fibre network to give you reliable, high-speed data transfer and plenty of capacity to meet the heaviest data traffic demands.

The DIA service is delivered over a leased line linking your local area network to a 365 point-of-presence.

The service includes a domain name service for primary and secondary hosted domains, mail forwarding, optional router installation and on-site configuration by an engineer.

Features at a Glance

Following is a list of the features of this service:

- internet access via hosting365 backbone network
- access circuit between 64Kbps and 34Mb
- assignment of public IP addresses (subject to confirmation)
- mail forwarding
- news feed
- optional Cisco Router & Cisco Firewall
- Support for ISDN Back-Up (requires ISDN Line)
- Full Service Level Agreement
- Free Install on selected lines

How Is the Service Delivered?

Hosting365.ie will deliver and integrate our DIA into your LAN topology with minimum disruption to your business.

Our engineers will be on hand for both the installation and for any questions or concerns you may have.
