| Hosting365 Reseller Systems

We are one of the largest hosts for resellers in Ireland for a reason.

Our team is fully committed to providing the best combination of products, services and support to our Resellers. Our products range from shared Unix and Windows hosting solutions, to powerful dedicated servers. By becoming a Reseller Partner you receive the benefit of our technological expertise and our personalized, proactive customer service.

Our advantages include:

- Retain customer relationships
- Wholesale pricing
- Priority technical support
- Sales and marketing resources
- Automated Billing & Support Systems
- Sales support
- Variety of hosting products
- Centralized account management and ordering
- Brandable client control panel

Retain customer relationships - We understand the importance of maintaining strong relationships with your customers. We operate behind the scenes to support our resellers with superior hosting products and excellent technical service. You set your own pricing, bill your clients and provide customer and technical support for your clients. We have no direct involvement with your clients.

Wholesale pricing - When you sign up as a reseller, you access your reseller control panel, where you can see the wholesale prices for all services and products and can define the pricing for your customers. Our system includes real-time automated sign-up and provisioning through your completely branded interface.

Priority technical support - We're always here to assist you in providing the best support to your customers. We are committed to making your hosting experience as easy and stress-free as possible. Whatever your technical skill level, our experienced team can work with you to solve any issues your customers may have.

Sales and marketing resources - We understand that a credible, high-profile image is a key factor in sustaining leadership in the marketplace, and we are here to help you do exactly that. We can provide a variety of marketing resources and product collateral that can be branded with your company look and feel.

Sales support - Our experienced team is dedicated to helping our partners succeed by assisting in pre- and post-sales support. We will consult with you to design solutions that meet the specialized needs of your customers.

Centralized account management and ordering - Use our Control Center to manage all your shared hosting accounts from one convenient interface.

Brandable client control panel - You can provide your customers with their own control panel, enabling them to set up email preferences, check statistics, etc. You can integrate our client control panel into your website so that it appears as your own.

As a hosting365 reseller, you will be able to fully brand the control panels your customers see. Just some of the branding you can achieve:

- Use your domain name as the control panel address they will use
- Use your own domain name for nameserver addresses, allowing your customers to register and transfer domains using your domain
- Brand the control panel your customers see with your logos, colours, text and contact details, customise every item of text and content your users will see
- Specify your retail pricing for all services and products, which the customer can order in real-time via their control panels or your website.
- Sell com/net/org/co.uk/org.uk/info/biz domains through your control panel, at prices you determine
